Good Morning,

I spoke with Deb yesterday on potential topics for CONEG next week.

So far topics include:

Realignment – (no materials needed)

Knowledge retention pilots – (Kate providing materials)

State scientist visit to Chelmsford and vice versa – (I'll check in with Johanna to see if she has anything she thinks would be helpful for this)

Citizen Science – QAPP, Workshop – Emily providing materials

Harmful Algal Blooms – ORD/NEWIPCC Workshop – (Nick Anastas providing materials)

PFAS – update on New England issues and National Management Strategy – (Megan Cassidy providing materials)

Smart Sectors – Sean providing update

Is there anything else you would like to go over with the Commissioners?

Thank you!

-Kate
